

Kiss & Ride Procedure

Our Kiss & Ride is to create a procedure which allows parents to drop off children for camp in a safe and efficient manner. To do so we need the cooperation of staff, campers and most of all parents, or guardians who are dropping off their children for camp each morning. Any Kiss & Ride program depends on the cooperation and patience of all parents, campers and staff. As a camp community it is important for everyone to understand and follow procedures in order to maintain a safe environment for our campers, staff and parents. We will be constantly reviewing and seeking out parental input to make our procedures more efficient, while maintaining safety as our first goal.

MORNING DROP OFF PROCEDURES

1. Please drive up to the staff member with the orange vest which will be the drop off area. If you need assistance to help a young child exit the vehicle please wait till you are at the front of the staff member and you will be assisted.
2. We ask parents not to stop on the other side of the street as this creates a traffic jam as parents try to go through.
3. Drivers need to pull up next to side of the road closest to camp, allowing campers to exit from the passenger doors stepping onto the grass (campers should not exit from the driver side).
4. Parents are not to exit their vehicle, nor leave their car parked in the Kiss & Ride lanes.
5. Once your child has exited the vehicle please pull out safely and follow the traffic signs. Please do not sit in your vehicle and watch your child. Do not back up your vehicle while in the Kiss & Ride lanes.
6. Parents are allowed to park their cars in the parking lot at Westacres School and escort their children to camp.

AFTER PICK UP

1. Usually after camp there is a line-up of parents parked in our Kiss & Ride awaiting the dismissal of their children. Please understand that this is unavoidable as everyone comes at the same time to pick up their child.
2. Please do not leave your vehicle unattended in the Kiss & Ride lane.
3. Campers are expected to enter their vehicles by the passenger doors, keeping them safe from any vehicles passing by in the drive through lane.
4. As you collect your children you can then pull out into the drive through lane. Please pull out safely and slowly. As parents pull out we then ask the vehicles in line to pull up, this way keeping the line moving forward. Also please DO NOT back up your car when in our Kiss & Ride lanes.
5. We do not allow campers to walk between cars to get to their parents who may be in the drive through lane.
6. If you park in the parking lot you must come and escort your children to your car so that they are safe. We do not allow then to walk through the Kiss & Ride lanes unescorted.
